

Services

We are committed to working with children and families so that they are strong, connected, and have the support necessary to overcome life's challenges. We emphasize safety, problem solving, collaboration and growth.

Our Team

We have a proven record of delivering positive outcomes in residential settings. Our leadership is trusted and experienced. We respect individual strengths while ensuring incomparable supervision. We've recruited a dedicated and committed team that has received exceptional training in trauma informed care, including nationally recognized models such as Safe Crisis Management.

Admissions

Our model identifies which children we can treat based on whether our program model will help them. At The Heritage of Hannah Neil, children will find a caring, safe environment in which they can heal, grow, and reach their full potential.
